Made a Bad Law Out of a Good One and Made a Great Department a Place for Jobbery.

The bill puts a check on possible frauand collusion to rob the city, and, if passed, as has been shown through "The Evening World" by persons quali fied to speak, will save the taxpayers

The Dock Department and 53,000,000 every year and proposes build new plers at an estimated cost \$20,000,000 to \$50,000,000. By applying simple rule of arithmetic, it will be on that if the Lawson bill becomes a the millions of the people's mony which now go to favorite contractors and to swell private bank accounts, will be saved to the city.

All important dock work was originally done by contract under the provisions of the Consolidation act. In 1887, however, the schemers had the charter se amended as to make possible the present system of favoritism and extravagant The little toker which was insert printed below.
